

STUDENTS OFFERING SUPPORT DONATION FORM

Currently, Students Offering Support is in need of help. With the necessary financial support, it has the potential to grow not only within Canada, but internationally. Thousands of students are ready to raise funds for sustainable solutions helping children gain access to a quality education. The association was created to be a self-sustaining organization. To get to that point by our target date of September 2009, we need your help.

Education has been defined as one of the three fundamental elements required for children to break the cycle of poverty. It is something that we have all been extremely fortunate to have had, and something that 100 million children currently are without. SOS's mission is to help as many of these children as possible gain access to a quality education, helping them to break the cycle of poverty.

Join the hundreds of volunteers and supporters who realize the severity of this global epidemic. If you also see the existing and future potential that Students Offering Support has to help, do what you can.

Thank you for your time and support,

Greg
