

## Trip Participant Fee Breakdown

---

February Trips: **\$950.00 CAD + flight cost**

May and August Trips: **\$1,150 CAD + flight cost**

### In Country Logistics

Including meals, accommodations, transportation within country, and support on the ground from our partnering organization (including bilingual trip leader).

### Travel and Medical Insurance

Under the discretion of our insurance provider SOS Outreach Trip participants are covered for: trip interruption or trip cancellation, missed connections, lost baggage or personal effects, emergency medical, lost or stolen passport, and more.

### **Trip Leader Contribution**

Every Outreach Trip has a Trip Leader from Canada who are screened, trained, and evaluated by Head Office. The Trip Leader is your group's representative and begins work three to four months before your trip departs. The Trip Leader is responsible for disseminating important information from Head Office to participants, meeting with the partnering organization before departure, ensuring participants make payments and submit payments on time, and acting as the group representative to ensure the wellbeing of the participants during the trip.

### **Participant Gear**

Every participant receives their own journal, t-shirt, safety goggles, and work gloves. The group receives a first aid kit and other safety gear relevant to their project such as hard hats and/or rubber gloves.

### **Administration**

SOS Head Office staff plans your trip for over a year before it departs. They work with SOS's partnering organizations to read, review, evaluate, and select trip proposals. They plan your trip itinerary, organize travel details such as flights and insurance, and mentor chapter volunteers to relay trip information and recruit volunteers. While working with participants to prepare them for the journey, Head Office screens, selects, and trains Trip Leaders. During your trip Head Office staff is on call 24/7 in case of any emergencies and send updates to your loved ones back home. When you arrive home after your trip SOS Head Office communicates with our partners in Central and South America to ensure projects are completed, sustained, and to start planning again for next year!

### **Project Emergency Fund**

This fund covers the cost of the project in the event that the chapter is unable to raise the amount needed for the project. If the chapter is successful in raising the entire amount, this is put towards other projects in need financial assistance.
